

Year 3 Summer Learning Journey

Themes running throughout this term:

What did the ancient Egyptians believe? Abstract shape and space, How can we be safe online, Constructing a castle, Are all settlements the same?

As mathematicians, we will:

- Identify the numerators and denominators in a fraction
- Find fractions of an amount
- Partition the numerators of fractions
- Identify amounts of money
- Find the difference between amounts of money
- Tell the time at 5 minute intervals
- Identify and explain the properties of shape

As writers, we will:

- Re-reading our work to check for grammar errors
 - Using inverted commas and a range of synonyms for said to give speech to characters
 - Using conjunctions in our writing to add detail
 -

As readers, we will:

- Be able to answer fact retrieval questions
- Be able to use what we have read so far to make a prediction on what will happen next
- Use inference skills to discuss what the character is thinking or feeling based on events happening in the text.

The books we will be enjoying this term include:

Year 3 Noticeboard:

- PE continues to be on Tuesday afternoons
- Spelling tests and library visits are on Fridays.

In our topics, we will:

- Discuss how we grow and change over time
- Making connections- Does hand span affect grip strength?
- Identify ways to stay safe online
- Structures: constructing a castle
- Explore the similarities and differences between different settlements
- Exploring abstract shape and space
- Develop skills in athletics and cricket
- Understand what the ancient Egyptians believed
- Explore scripture in religion
