

Lubbins Park Primary Academy

School Sports Premium Statement 2017-2018

The Government is currently giving schools £150 million per academic year until 2019-20 to develop sports provision in school. The funding is called PE and Sports Premium Funding and it is being provided to improve the provision of physical education and sport in primary schools across the country. The funding is being jointly provided by the Departments for Education, Health and Culture and Media and Sport.

At Lubbins Park Primary Academy we are committed to using the P.E. and Sports Premium Funding to continue to enhance the high quality teaching and experiences we have already established and to provide increased opportunities for our children to be active and develop a passion for sports, physical activity and a healthy lifestyle.

The majority of our P.E. and Sports Premium money is spent on specialist P.E. teachers working alongside teachers to deliver daily, exciting and challenging P.E. lessons. Along with the continued implementation of the Healthy Lifestyle programme to provide practical and theory based sessions outlining the importance of living healthily. This year we have focussed on developing and enhancing this course further.

We use the expertise of the School Sports Partnership practitioners (CPRSSP) to provide staff with on-going CPD and expertise in gymnastics, invasion games and dance by teaching daily afternoon sessions for all year groups across the academic year. This ensures that our children enjoy outstanding and vibrant P.E. lessons, and that the professional development of our own teaching staff is also provided to increase teachers' subject specific knowledge and confidence levels. Our staff are able to observe and team teach and get fully involved in this process to allow for a true sporting legacy at Lubbins Park Primary Academy.

Although most of the funding for 2017-18 is reinvested into the Castle Point and Rochford Sports Partnership (CPRSSP) to develop CPD this investment also allows the school to gain access to regular sporting competitions, festivals and regional school games competitions.

The remainder of the available funding will be used across various projects including to further enhance the role of the school's 'Play Leaders' so more purposeful and positive play is experienced through morning and lunchtime play by using progressive role models of the school community to enhance positive play in our school playground.

Current Sports Clubs:

- **Monday**
